

## ENVIRONMENT, HEALTH & SAFETY (EHS) POLICY

Valvula Energy is committed to being an Environment-friendly Company in all its activities, Products and Services and to provide a Safe and Healthy working Environment to all persons working for (or) on behalf of the Organization as an integrated part of Business Performance through:

- Compliance with applicable legislation and other requirements to which the Organization subscribes.
- Continual improvement in the HSE Management Systems' performance through Identification & prevention of injury, ill-health, pollution and conservation of resources.
- Providing a frame work for setting & reviewing HSE Objectives and Targets
- Communication of this Policy to all persons working for (or) on behalf of the Organization and to Interested parties.
