

QUALITY POLICY

Valvula Energy is committed to conduct all its business activities in a manner which complies with the laws and regulations of the countries in which it operates and to internationally recognized standards.

Specifically we:

- Ensure our quality policy & standards are understood and followed by all our employees at all levels in the Company.
- Set objectives and targets to promote continuous improvement in performance.
- Measure, appraise and report on quality performance.
- Provide appropriate training to all staff and assess their competence.
- Maintain open communication with clients and evaluate client satisfaction.
- Identify and correct quality issues and take appropriate action to prevent recurrence.
- Communication of this Policy to all persons working for (or) on behalf of the Organization and to interested parties.

C.Suresh Kumar
Managing Director
